A fee-for-service (FFS) plan is a type of health insurance plan in which health care providers are reimbursed by insurance companies based on each service rendered. With these plans, there is usually no network, and the policyholder can see any provider he or she wants. These plans are often more expensive than alternatives.

What is a Fee-For-Service Plan (FFS)? – Definition from ...

Fee-for-service is a payment model where services are unbundled and paid for separately. In health care, it gives an incentive for physicians to provide more treatments because payment is dependent on the quantity of care, rather than quality of care. However evidence of the effectiveness of pay-for-performance in improving health care quality is mixed, without conclusive proof that these programs either succeed or fail. Similarly, when patients are shielded from paying by health insurance cover

Fee-for-service – Wikipedia

A fee-for-service health plan allows you to see any provider -- doctors, hospitals, and so forth -- you want to see. Either the health plan pays the provider directly for the care you get, or it...

Fee-for-service (FFS) – WebMD

Fee-for-Service. A form of health insurance where the policyholder pays for medical expenses out-of-pocket and receives a reimbursement from the insurer. That is, a fee-for-service plan reduces the insurer's risk that the plan might be abused by requiring the policyholder to pay for expenses first, and only reimburses him/her afterward.
