press and hold the Power button for another 40 seconds to boot up. Your Nexus 7 should boot up normally now. Make sure you don't let it discharge completely again.

Fix: Nexus 7 Won't Turn On - Appuals.com

If your Nexus 7 appears completely frozen and won't power on or even charge, the most obvious solution is to pull the battery and reinsert it. However, the Nexus 7 doesn't have a user-serviceable battery. Instead of pulling the battery, hold down the power button for 30 seconds straight. You may have tried holding down the power button already – but you won't see any results until you hold it down for the entire 30 seconds.

It didn't do **** when I flashed it via Nexus Root Toolkit but when I used it via the clockwork think the nexus root kit installs it works fine. Thanks for the help everyone, first time doing anything like this to a phone and it was certainly a good experience! Never thought I would have android 7.1.1 running smoother than the 5.1.1 that was on it.
