Part 1 Project Management Methodologies - fa.quist.ca

Project management is a process that finds and applies the best method to manage and control work through its every stage. There's never just one way to accomplish this mission, and thus there is never just one methodology for project managers to use. Different methodologies work for different projects, industries, tools and teams. Methodologies can be approached rigidly, as a discipline without any deviations, or more à la carte, where a hybrid of two or more are used to respond to the ...
