The ethical status of embryo adoption, or heterotopic embryo transfer, remains an active debate within Catholic moral theology. Opponents of the practice compare the act of embryo adoption to surrogacy or extramarital procreation, and the debate is framed around the question of whether it is morally licit for a woman, married or unmarried, to gestate a genetically unrelated embryo in her uterus.

Ethics of Cryopreserved Embryo Adoption: Defrosting...

The embryo has to be thawed, transferred, and carried to term with a final destination. Otherwise, the embryos could be carried to term and " sold " for the highest bidder. Children would in turn become commodities for the next willing parent. Embryos deserve the same care as other children up for adoption. Therefore they must have a home to go to.

The analysis of the morality of embryo adoption (or 'prenatal adoption') is similar to that of surrogate motherhood. Both types of acts involve the transfer of an embryo to the womb of a woman who is not the mother of the child. Both acts are directed at the good moral object of giving life to an innocent and very young human person.

Embryo Adoption: a moral option for infertile Catholic spouses

Critics argue that the administration is using the embryo adoption program to confer upon the embryo the rights of a fully developed person, as if it were a baby. Much of this argument stems from the use of the term "adoption." How, critics argue, can one "adopt" a 6-celled embryo as if it were the equivalent of a child?
