PowerPoint. Since the technical programming methods in the Office applications continue to evolve, the updated 2019 edition reviews the changes to the program. Code libraries, the API, and the object model for each Office program have been modified during the three years since the last version of this book. Various elements within VBA have been deprecated or replaced, and the surface UI changed as well. The updated 2019 edition covers topics such as:

- Recording macros and getting started with VBA
- Learning how to work with VBA
- Using loops and functions
- Using message boxes, input boxes, and dialog boxes
- Creating effective code
- XML-based files, ActiveX, the developer tab, content controls, add-ins, embedded macros, and security

Written for all levels of Microsoft Office 365 users, *Mastering VBA Microsoft Office 365: 2019 Edition* explains how to customize and automate the Office suite of applications.

Updated to incorporate the latest features, tools, and functions of the new version of the popular word processing software, a detailed manual explains all the basics, as well as how to create sophisticated page layouts, insert forms and tables, use graphics, and create book-length documents with outlines and Master Documents. Writers talk about their work in many ways: as an art, as a calling, as a lifestyle. Too often missing from these conversations is the fact that writing is also a business. The reality is, those who want to make a full- or part-time job out of writing are going to have a more positive and productive career if they understand the basic business principles underlying the industry. *The Business of Being a Writer* offers the business education writers need but so rarely receive. It is meant for early-career writers looking to develop a realistic set of expectations about making money from their work or for working writers who want a better understanding of the industry. Writers will gain a comprehensive picture of how the publishing world works—from queries and agents to blogging and advertising—and will learn how they can best position themselves for success over the long term. Jane Friedman has more than twenty years of experience in the publishing industry, with an emphasis on digital media strategy for authors and publishers. She is encouraging without sugarcoating, blending years of research with practical advice that will help writers market themselves and maximize their writing-related income. It will leave them empowered, confident, and ready to turn their craft into a career.

The second edition of this best-selling Python book (over 500,000 copies sold!) uses Python 3 to teach even the technically uninclined how to write programs that do in minutes what would take hours to do by hand. There is no prior programming experience required and the book is loved by liberal arts majors and geeks alike. If you've ever spent hours renaming files or updating hundreds of spreadsheet cells, you know how tedious tasks like these can be. But what if you could have your computer do them for you? In this fully revised second edition of the best-selling classic Automate the Boring Stuff with Python, you'll learn how to use Python to write programs that do in minutes what would take you hours to do by hand--no prior programming experience required. You'll learn the basics of Python and explore Python's rich library of modules for performing specific tasks, like scraping data off websites, reading PDF and Word documents, and automating clicking and typing tasks. The second edition of this international fan favorite includes a brand-new chapter on input validation, as well as tutorials on automating Gmail and Google Sheets, plus tips on automatically updating CSV files. You'll learn how to create programs that effortlessly perform useful feats of automation to:

- Search for text in a file or across multiple files
- Create, update, move, and rename files and folders
- Search the Web and download online content
- Update and format data in Excel spreadsheets of any size
- Split, merge, watermark, and encrypt PDFs
- Send email responses and text notifications
- Fill out online forms

Step-by-step instructions walk you through each program, and updated practice projects at the end of each chapter challenge you to improve those programs and use your newfound skills to automate similar tasks. Don't spend your time doing work a well-trained monkey could do. Even if you've never written a line of code, you can make your computer do the grunt work. Learn how in Automate the Boring Stuff with Python, 2nd Edition.
